Raul
Garcia

Web Developer

ABOUT ME

As a computer lover, I have fundamental skills to perform my role effectively. Since I was little, I have always been passionate about the world of computing and technology, which led me to study and acquire knowledge in this area.

I am passionate about finding problems and solving them, which is why I am training to become a backend web programmer specialized in Laravel.

My innate curiosity has driven me to explore and discover new ways to solve problems, which has led me to develop skills in finding solutions and solving problems effectively.

I am committed to excellence at work, and I am always looking to learn and update myself on the latest trends and technologies in my field. I am confident that my skills and passion for technology make me an ideal candidate for any IT position.
